## **Thomas Gingrich** Design Project-Record Player CADD-245 Portland Community College

### Introducing...

# The "Spin-Wave" Record Player

### **KEY DESIGN AND MARKETING VALUES**

#### Versatility and Accessibility:

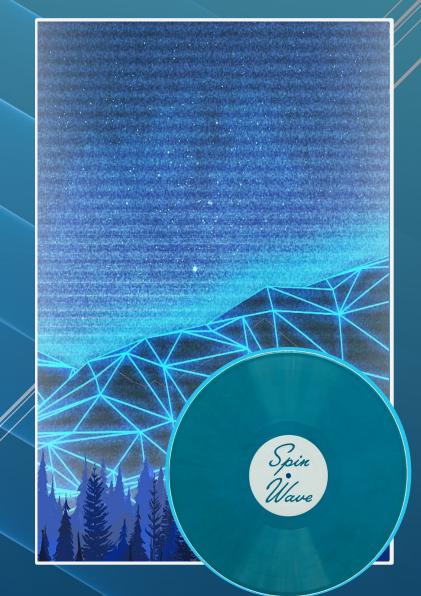

The "SpinWave" is more than just a record player. Its built-in speakers and Bluetooth capabilities redefine how users experience their favorite vinyl and digital music.

#### Sleek Design with Superior Performance:

Aesthetically pleasing, the minimalist design of the "SpinWave" seamlessly blends with any decor while delivering great sound quality, making it a statement piece in any room.

#### Nostalgic Appeal, Modern Convenience:

Capitalize on the resurgence of vinyl with a product that combines the nostalgic charm and look of record players with a contemporary feel with features like Bluetooth connectivity and speed control.

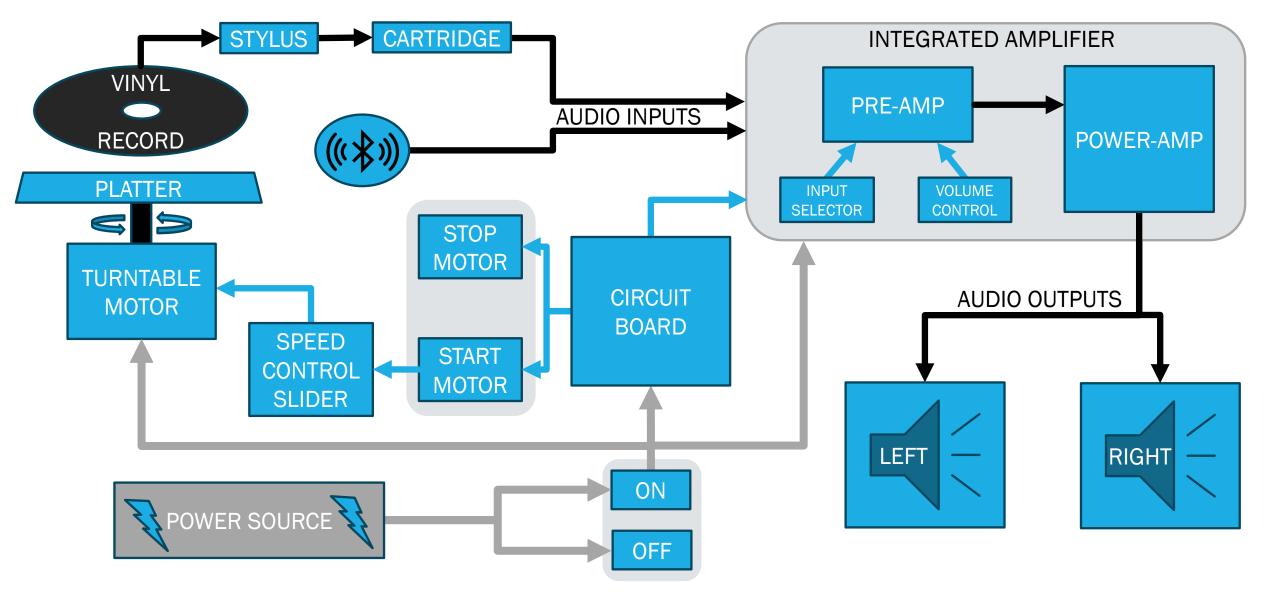

# Spin-Wave BILL OF MATERIALS

| OUTSIDE DESIGN             | INSIDE DESIGN                             |  |  |
|----------------------------|---|--|--|
| MAIN HOUSING               | TURNTABLE MOTOR                           |  |  |
| TOP PANEL AND PLATTER      | PREAMP/AMP                                |  |  |
| DUST COVER WITH HINGES     | TONEARM INPUT BOARD                       |  |  |
| TONEARM WITH COUNTERWEIGHT | LED LIGHT                                 |  |  |
| CARTRIDGE/STYLUS           | CONROL/INPUT CIRCUIT BOARD                |  |  |
| POWER/VOLUME & SPEED KNOBS | WIRING                                    |  |  |
| RUBBER FEET X3             | PREAMP/AMP                                |  |  |
| INPUT SELECTION KNOB       | RIGHT SPEAKER UNIT (WOOFER, TWEETER, ETC) |  |  |
| RIGHT/LEFT SPEAKER COVER   | LEFT SPEAKER UNIT (WOOFER, TWEETER, ETC)  |  |  |
| POWER CORD                 | A/C POWER SUPPLY BOARD                    |  |  |

## **USER JOURNEY** *SPINWAVE* RECORD PLAYER

|                                       | PHASE 1: RESEARCHING<br>RECORD PLAYERS  | PHASE 2: PURCHASING<br>RECORD PLAYER  | PHASE 3: ENGAGING WITH RECORD<br>PLAYER  | <u>PHASE 4</u> : DISPOSAL OF<br>RECORD PLAYER  |  |
|---------------------------------------|---|---|--|--|--|
| CUSTOMER<br>WANTS AND<br>NEEDS        | <ul> <li>Discover different types of record<br/>players that are available (online<br/>research, friends, ads).</li> <li>Find a record player that is easy to use<br/>and looks especially good sitting on<br/>the shelf. Not an audiophile.</li> </ul> | <ul> <li>Doesn't want to use bulky receiver<br/>and doesn't want to wire a<br/>speaker system.</li> <li>Wants a quality design with user<br/>friendly features at a reasonable<br/>price point.</li> </ul>                      | <ul> <li>Easy to use. Easy to connect to Bluetooth.</li> <li>Sound is as good as any high-quality portable<br/>Bluetooth speaker.</li> <li>Wants to show it off in house or apartment.</li> </ul>  | <ul> <li>Wants to be able to find<br/>replacement parts if needed.</li> <li>Wants it to last a long time.</li> <li>Should be able to recycle or<br/>upcycle at end of product life.</li> </ul>                 |  |
| CUSTOMER<br>THOUGHTS AND<br>EMOTIONS  | THOUGHTS AND What is a  |   |  |  |  |
| CUSTOMER<br>PAIN POINTS               | • So many options, many look very complex to use. Many require additional hardware which means additional research and money spent.   | <ul> <li>Doesn't only listen to vinyl records.<br/>Enjoys listening to playlists on<br/>Spotify and Apple music.</li> </ul>   | <ul> <li>Happy with the product but would enjoy a few more features to show off to friends.</li> <li>Uses it mostly for streaming music from phone through the Bluetooth feature.</li> </ul>   | <ul> <li>Fixability, finding parts.</li> <li>How to dispose of system?<br/>Electronics can be difficult to<br/>recycle.</li> </ul>   |  |
| PRODUCT<br>IMPROVEMENT<br>OPPORTUNITY | <ul> <li>Make it user friendly with a design<br/>that is very pleasant looking.</li> <li>Make it an all-in-one player. No<br/>additional hardware decisions and<br/>purchases necessary.</li> </ul>   | <ul> <li>Incorporate a Bluetooth receiver<br/>into the product.</li> <li>Low cost but adds immense value<br/>to the product. Vinyl is expensive<br/>and music streaming is still the<br/>most popular way to listen.</li> </ul> | <ul> <li>Add some features that stand out to friends<br/>that also encourage listening to vinyl over<br/>Bluetooth.</li> <li>Incorporate a motor speed control slider.</li> <li>Have a way to display the record sleeve so<br/>the user can show off the album artwork.</li> </ul> | <ul> <li>Have good customer service<br/>and develop a fair warranty.</li> <li>Provide replacement parts.</li> <li>Have resources that give<br/>solutions for recycling and<br/>ideas for upcycling.</li> </ul> |  |
